Display Board Information (D & S Inspection)

ARASE affiliates with the Society for Science and the Public (SSP) and follows the Display and safety (D & S) SSP regulations. The regulations also apply to the Texas Science and Engineering Fair (TXSEF).

Maximum Size of Display Board: (Table Model or Floor Model)

- Depth (front of table to back of the board): 30 inches.
- Width (side to side): 48 inches.
- Height (floor to top): 108 inches. If the project is a table model, the table is included in the measurement. This also includes the title board.

Requirements Display Board:

☐ The **STAMPED** <u>Official Abstract/Certification</u> Form goes on the **upper left-hand side** of the board or **standing up right** on the table with a support. <u>NOT</u> flat on the table. If placed on the board, it should be the first item. <u>DO NOT</u> use the title "Abstract" on the board. It can also be placed in a plastic cover taped to the edge of the table so that it hangs from the table.

☐ **If** the following <u>SRC Forms</u> were applicable to the study, they should be displayed be <u>vertically</u> on the table, on the board, or be placed in a plastic cover taped to the edge of the table:

- Form (1C) Regulated Institutional/Industrial Setting
- Form (7) Continuation Projects

☐ **Science Project Report MUST** be at the <u>DISPLAY</u> (in folder, binder, stapled or bound). It needs to **STAY** when students are dismissed. Blue judges need to see it.

☐ Photographs, diagrams, or flow charts can be used to describe the method or results.

☐ Photographs, diagrams, charts, graphs, etc. need to have a <u>CAPTION</u> and <u>FIGURE NUMBER</u>.

☐ Photographs and/or visual depictions need to have a <u>CREDIT LINE</u> **or origin**. "Photograph taken by …" **or** "Image taken from…" One credit line is sufficient if taken by one person or taken from the same source.

☐ Photos of Humans are allowed <u>ONLY IF</u> there is a <u>PHOTO CONSENT</u> by participant to display the photo. Student researcher <u>DOES NOT</u> **need consent nor** cover face if in photo.

Items That DO NOT Go On The Display Board:

☐ Bibliography <u>DOES NOT</u> go on the board. It goes in the report.

☐ Acknowledgments <u>DO NOT</u> **go** on the board! They go in the science report without names.

Items NOT ALLOWED at Project or Exhibit:

☐ Refer to the Intel *International Rules and Guidelines*. Go to www.societyforscience.org. Go to *What We Do"* link and on "*Intel International Science and Engineering Fair*". On the next page, click again on "*Intel International Science and Engineering Fair*". Scroll down to *"Rules, Forms, and Resources".* Go to the center of the page to *"All Projects". S*croll down to Display and Safety Regulations.

NOTE: Use large print (at least larger than 12 font pt.). It is easier for judges to read.

Start the display from left panel to right so judges can follow the **FLOW** of the experiment like the flow of the report. You can have a photo album and a data log if you wish.
